ID number: KA204-  
0F650B26

Co-funded by the  
Erasmus+ Programme  
of the European Union

## Operational Objectives

- To define a training path for the empowerment of rural women through the development of ICT skills for entrepreneurship.
- To identify the different actors in the training process and provide them with a clear pedagogical approach.
- To create an intervention framework for the training where all the agents involved participate and collaborate.
- To build an online platform that allows and ensure the training process.

## Strategic Objectives

- Developing the ICTs competencies of rural women entrepreneurs.
- Bringing ICT training closer to the target group, enabling their empowerment and contributing to fighting the gender digital divide.
- Fostering rural women's employability through ICT skills development.

# Target Group

The project addresses rural female entrepreneurs - women from rural areas who accept a challenging role to meet their personal needs and become economically self-sufficient.

The project Bridging The Gap will also develop a MOOC (Massive Open On-line Course) that will enable the upskilling of rural women in ICTs.
